

# Compare and Contrast

Comparing means to look for things that are the same. Contrasting means to look for things that are different. Bob and Frank are both monsters. Read both paragraphs. Then compare and contrast them.

**Bob**

Bob is a monster. He really wants to be scary, but he isn't. He's short and cute and silly instead. He is green, and he has horns. He also has a tail.

**Frank**

Frank is a monster. He is very friendly and he wants people to like him, but they don't. Instead, everyone thinks he is scary. He's tall, and fierce-looking, and always very serious. He has bolts in his neck, but otherwise looks pretty human.

**Bob**

**Both**

**Frank**
