## THE ADDITION WHEEL

Complete the addition wheel with the sums. Write your own equations in the blank circles.

The addition wheel consists of a central circle with the number 10 and a plus sign. Surrounding this is a ring of numbers: 1, 2, 3, 4, 5, 6, 7, 8, 9, and 10. The wheel is divided into 10 segments by radial lines. Above the wheel are two blank addition equations:  $\bigcirc + \bigcirc = \bigcirc$  and  $\bigcirc + \bigcirc = \bigcirc$ . Below the wheel are two more blank addition equations:  $\bigcirc + \bigcirc = \bigcirc$  and  $\bigcirc + \bigcirc = \bigcirc$ . The entire activity is framed by a decorative border of various geometric shapes like squares, triangles, and rectangles.

How Did You Do? 😊 😐 😞
