## **DRAW THE SCENE**

As you read, you must mentally represent the scene.

My grandfather lives in a stone and wood house that is surrounded by trees. The house has two floors, many windows and a wooden balcony. It is very old and quiet. On one side of the house is the garden, where the grandfather grows all kinds of vegetables that he waters with water from the stream. On the other side there is a small path that leads to a nearby town.

How Did You Do? 😊 😐 😞
