DRAW THE SCENE

As you read, you must mentally represent the scene.

Monica walked into her brothers' room and looked around. On the far wall, the window was open, and the curtains drawn, letting the rain in. On the wall to the right, there was a peg with a peaked cap hanging on it, and just below it, a chair piled high with books. On the opposite wall, next to the bunk beds, was the desk on which rested a cage with three mice. The floor of the room was spattered with black ink stains, and in the center, on top of the rug, was a soccer ball. But no sign of the twins.

How Did You Do? 😊 😐 😞
