

Classroom Objects

HOW TO PLAY:

Cut out the cards and place them face down on a flat surface. Each player picks up a card, but does not show it to the other players. To take a turn, a player describes the object on the card they are holding. If another player guesses what the object is, the player gets to keep the card. If no players guess, the card is returned face down to the surface and play continues. The winner is the player with the most cards once all cards have been drawn and all objects have been guessed.

How will you describe your object?

- How big (or small) is it?
- What color is it?
- What does it feel like?
- What does it taste like?
- What is it made of?
- What is it used for?
- What shape is it?
- What other information can you provide to describe your object?
