International Women's Day

International Women's Day is celebrated around the world every year on March 8th in recognition of women's cultural, political, social, and economic accomplishments. It is also a reminder that there is still some way to go to achieving true gender equality.

Ten values that guide International Women's Day are:

Justice	Tenacity
Dignity	Appreciation
Hope	Respect
Equality	Empathy
Collaboration	Forgiveness

DIRECTIONS: Create a drawing, collage, or digital artwork that expresses the guiding values of International Women's Day.
