

# Inferences

**DIRECTIONS:** Read. Then answer the questions.

Liam and his mother walked up and down the aisles of the huge library, one floor at a time. There were books for every imaginable field of study. Literature, history, biography, geography, every branch of science. There were maps. Cookbooks. Children's picture books. There were books that were nothing but bibliographies – lists of other books. Here and there were students studying. Some of them glanced up as Liam and his mother walked by. A few wore headphones. One was asleep.

"Well?" his mother asked him as they stepped into the stairwell. She started down the stairs, back towards the door. Liam started up. She followed him.

"I like it," he said. "I can see myself here."

1. What kind of library do you think Liam and his mother are visiting?

- A. a community library
- B. an elementary school library
- C. a high school library
- D. a university library

2. How did you make this inference?
