

ANSWERS

1. Long Neck Island
2. kind and friendly, mostly happy, most days
3. no neck to speak of, really, at all. He also had short, stubby legs, a wide flat belly that brushed against the tips of tall grass, and a row of plates down the center of his back.
4. he doesn't look like the other long necks
5. an egg
6. he hides in the sand and takes care of it
7. Eugene
8. there are other long necks who look like he does
9. no, he is a different kind of dinosaur who probably also washed up onto the shore as an egg.
