

APA Citations: Books

If you are referencing an entire book but not directly quoting any material, then you only need to reference the author and the year of publication in your citation. However, if you directly quote from a book, your citation must include the page number where the quotation can be found.

DIRECTIONS: Identify the points you will make in your essay and the evidence you will use to support each one. Write the in-text citation that you will include in your essay when you cite each piece of evidence.

My point is:	
Evidence:	
Citation(s)
