

Literature Review Synthesis Essay

A **synthesis essay** is an essay that uses information from multiple sources with different views in order to explain something or to support a new and original claim or idea. An **literature review synthesis essay** is usually written as part of a larger project. It involves reviewing existing literature on a particular topic and identifying common themes. An analysis of the literature helps the student to identify which issues have been well-researched and analyzed and which haven't. This kind of research can be useful as a way to justify specific research the student would like to conduct.

What is the topic of your Literature Review research?
