Name Using Varied Transitions in Writing
--

## **Using Varied Transitions**

Read your draft paper. Write down each transition word that you have used. Have you used the same transition word more than once? What kind of transition is it? What other transition could you use in place of repeated transitions? Is the transition that you used the best word or phrase to signal to the reader precisely what you want them to understand? What other transition word or phrase might work better?

Transition I Used	Other Transitions I Could Use
