

Name _____ **International Space Station**

International Space Station

Many different countries partnered together to create and maintain the International Space Station:

- | | | | |
|---------------|---------------|-------------|-------------|
| Canada | Germany | Norway | Belgium |
| Great Britain | Spain | Denmark | Italy |
| Sweden | France | Netherlands | Switzerland |
| Japan | United States | Russia | |

One of the greatest achievements of the ISS isn't technological: it's the ability for all of these nations to come together to accomplish a single goal. Design a flag that represents the International Space Station, Earth as a whole, and the ability of its many countries to come together as one.
