Website Credibility

DIRECTIONS: Consider the website you are using with regards to each question below. Based on your answers to the questions, do you think this website is credible? Explain your answer below.

- The website belongs to an established institution.

- The website provides expertise in a certain kind of information.

- The site does not belong to a company or a business. These entities are usually trying to sell you something.

- The website does not seem to have a bias.

- Information on the website is current.

- The site looks professional, and the writing is clear and grammatically correct.

- Articles on the website include the names of their authors.

- The website includes links to other, similarly credible sites.

Is this website credible? Why or why not?
