

# When a Test is Coming Up

Review the best practices for studying for a test. Put a check mark next to each item that have done. Have you missed anything? If so, take care of it before you sit down to study so that you are prepared.

- Make sure you have your notes, handouts, & homework in one place.
- Review your notes. Highlight things you don't know well in one color.
- Highlights things in your notes you don't understand in a different color.
- Review class work you have completed.
- Make sure you know the answers to anything you got wrong.
- Reread any text passages the test will cover.
- Make a plan for how you will master what you don't know.

Tomorrow in school, in preparation for this test, I will:

- 1.
- 2.
- 3.
- 4.
- 5.
