

NAME: _____

COMPARE FRACTIONS

Directions: Compare each fraction to a half. Color the fractions according to the key.

Less than half ~ blue

Equal to half ~ red

More than half ~ yellow

$\frac{1}{2}$	$\frac{2}{5}$	$\frac{6}{12}$	$\frac{4}{5}$	$\frac{7}{14}$
$\frac{4}{8}$	$\frac{6}{9}$	$\frac{3}{8}$	$\frac{2}{4}$	$\frac{7}{8}$
$\frac{1}{4}$	$\frac{3}{7}$	$\frac{5}{10}$	$\frac{4}{6}$	$\frac{3}{6}$
$\frac{5}{7}$	$\frac{2}{9}$	$\frac{3}{4}$	$\frac{1}{6}$	$\frac{4}{10}$

Think it Over: Draw a model to prove that $\frac{3}{7}$ is less than one half. Then explain how the model shows it is less than half.

How Did You Do? 😊 😐 ☹️
