

# Metaphors for Imagery

A metaphor is a type of figurative language that directly compares two unlike things, often for the purpose of illustrating an abstract concept. A metaphor is usually constructed using the verb "to be." Create a metaphor to answer each question. Then explain each metaphor. Why did you choose this particular comparison?

1. What is **thought**?

---

---

---

---

2. What is **chaos**?

---

---

---

---

3. What is **curiosity**?

---

---

---
