

# Non-count Nouns

Most nouns name something that you can count. These are called count nouns. To make most count nouns plural, add an -s to the end of the word.

A **non-count noun** names something that you cannot count; you can only measure. For example:

- soup
- rice
- gravy
- vengeance

**DIRECTIONS:** Write the plural form of each noun on the line. If it is a non-count noun, write *non-count* on the line.

- |                     |                      |
|---------------------|----------------------|
