

Portable Medical Devices

Conduct research to find answers to the following questions:

- What is a portable medical device?
- Provide some examples.
- How are portable medical devices changing healthcare?
- What are the positive impacts of portable medical devices?
- Are there any drawbacks to portable medical devices?

Based on what you have learned, list at least three additional questions that you have about this topic.

1. _____

2. _____

3. _____

Research the answers to your questions. Then, based on everything you have learned, narrow down your topic to one specific aspect of portable medical devices and write an explanatory paper about that specific topic. Be sure to include a bibliography. Write your focused topic below.
