

Sequential Text Structure

Text structure means the way that an author organizes the information in a text. There are different ways to organize a text, depending on what it is about and what its purpose is. A text that is in **sequential** order presents information in a step-by-step way.

DIRECTIONS: Read the assigned text.

1. What is this text about?

2. Identify a key phrase or sentence from the text as evidence that this text uses sequential structure.

3. List the steps in the sequence. Use only the bullets you need.
