## Fall: A Season of Change and Harvest

Fall, also known as autumn, is a magical season filled with colorful leaves, cool breezes, and celebrations. Let's explore the history, dates, and exciting traditions associated with this wonderful time of the year! Fall has been a part of Earth's natural cycle for millions of years. It occurs after summer and before winter, bringing changes to the weather, plants, and animals. It is a time when the days become shorter, and the temperatures start to cool down. Fall officially begins around September 22nd or 23rd and lasts until around December 21st or 22nd in the Northern Hemisphere. In the Southern Hemisphere, where seasons are reversed, fall starts around March 20th or 21st and ends around June 20th or 21st.

Fall is a season of abundance when farmers harvest their crops. Many communities celebrate with harvest festivals. These festivals feature music, games, delicious food, and fun activities like pumpkin carving and apple picking. It is a time to give thanks for the bountiful harvest. One of the most popular fall celebrations is Halloween, which takes place on October 31st. It is a time for dressing up in costumes, carving pumpkins into jack-o'-lanterns, and going trick-or-treating for candy. People also enjoy telling spooky stories and watching Halloween-themed movies.

Towards the end of fall, on the fourth Thursday in November, families in the United States celebrate Thanksgiving. It is a special day to gather with loved ones and express gratitude for the blessings in life. Families enjoy a grand feast, including a roasted turkey, mashed potatoes, cranberry sauce, and pumpkin pie. Fall is the perfect time for nature walks. As the leaves change color and fall from the trees, the forests become a beautiful mosaic of red, orange, and gold. People go for walks or hikes, enjoying the crisp air and the rustling sound of leaves beneath their feet.

When the leaves fall from the trees, they create big piles on the ground. Children love to jump into these leaf piles and hear the satisfying crunch as they land. It's a simple joy that brings laughter and fun.
