# Skip counting by 5

Help the bear to get the honey. Follow the path from the start to the finish by skip counting in 5s up to 40.

A maze puzzle where the goal is to help a bear reach honey by skip counting by 5s. The maze is a square with various paths and dead ends. Numbers are placed at various points along the paths. A red line traces the correct path from the 'START' point (marked with a bear and an arrow) to the 'FINISH' point (marked with an arrow and two honey jars). The path starts at 5, goes to 10, then 15, 20, 25, 30, 35, and finally 40.
