## WhatsApp

Answers:

1. WhatsApp was founded by Jan Koum and Brian Acton in 2009.
2. With the WhatsApp app, you can send text messages, make voice calls, video calls, and create group chats.
3. When every message sent over WhatsApp is encrypted, it means that only the person who you are sending the message to can read it. Not even WhatsApp can see your messages.
4. WhatsApp became a part of Facebook in 2014.
5. More than 2 billion people use WhatsApp.
