

Name _____

Baseball

Answers

1. Each baseball team has nine players.
2. The goal of a baseball game is to score more runs than the other team.
3. A run in baseball is scored when a player hits the ball and runs around all three bases and back to home plate without being tagged out.
4. An out in baseball can be made in several ways, like a player failing to hit the ball three times (a strikeout), or a fielder catching a hit ball before it touches the ground (a flyout).
5. The World Series in baseball is an annual event where the best teams from the American and National leagues play against each other to become the champions.
