

Name _____

Improper Fractions to Mixed Numbers

Convert the improper fractions to mixed numbers.

$$1) \quad \frac{43}{22} = \square \frac{\square}{22}$$

$$2) \quad \frac{54}{15} = \square \frac{\square}{15}$$

$$3) \quad \frac{78}{19} = \square \frac{\square}{19}$$

$$4) \quad \frac{50}{19} = \square \frac{\square}{19}$$

$$5) \quad \frac{21}{4} = \square \frac{\square}{4}$$

$$6) \quad \frac{87}{35} = \square \frac{\square}{35}$$

$$7) \quad \frac{57}{29} = \square \frac{\square}{29}$$

$$8) \quad \frac{47}{33} = \square \frac{\square}{33}$$

$$9) \quad \frac{28}{17} = \square \frac{\square}{17}$$

$$10) \quad \frac{45}{29} = \square \frac{\square}{29}$$
