

Name _____

Multiplying Fraction with Whole number

Multiply the whole numbers with the fractions
by using repeated additions.

$$1. \quad 3 \times \frac{7}{8} = \frac{7}{8} + \frac{7}{8} + \frac{7}{8} = \frac{21}{8}$$

$$2. \quad 5 \times \frac{1}{4} =$$

$$3. \quad 2 \times \frac{4}{9} =$$

$$4. \quad 5 \times \frac{3}{11} =$$

$$5. \quad 7 \times \frac{3}{8} =$$

$$6. \quad 4 \times \frac{2}{15} =$$

$$7. \quad 3 \times \frac{2}{9} =$$

$$8. \quad 4 \times \frac{1}{5} =$$

$$9. \quad 7 \times \frac{3}{10} =$$

$$10. \quad 6 \times \frac{4}{13} =$$
