

Name _____

Animal Crackers Day

Answer Key

Correction Marks

Animal crackers have a fascinating history that dates back to the late 19th century. In 1871, a British biscuit manufacturer named Stauffer's Biscuit Company introduced a small, animal-shaped cracker called "Animals in England. These crackers were a hit and quickly gained popularity. In 1902, the company made its way to the United States, where animal-shaped crackers soon became a favorite among American children.

In 1902, the National Biscuit Company (Nabisco) began producing its own version of animal crackers, known as "Barnum's Animals." These crackers were named after P.T. Barnum, the famous circus owner and showman, and were sold in a small, colorful box featuring circus animals. The packaging included a string, allowing children to carry their animal crackers like a circus cage. Over the years, the shape and design of the animal crackers evolved, and they became a staple snack for generations of kids. In 2018, Nabisco redesigned the packaging to depict the animals roaming freely rather than in cages, a change that reflected evolving attitudes towards animal welfare. Today, animal crackers continue to be a beloved snack enjoyed by people of all ages, reminding us of their rich and flavorful history.

Complete Passage

Animal crackers have a fascinating history that dates back to the late 19th century. In 1871, a British biscuit manufacturer named Stauffer's Biscuit Company introduced a small, animal-shaped cracker called "Animals" in England. These crackers were a hit and quickly gained popularity. In 1902, the company made its way to the United States, where animal-shaped crackers soon became a favorite among American children.

In 1902, the National Biscuit Company (Nabisco) began producing its own version of animal crackers, known as "Barnum's Animals." These crackers were named after P.T. Barnum, the famous circus owner and showman, and were sold in a small, colorful box featuring circus animals.
