

Name _____

National Safety Month

Answer Key

Correction Marks

In a colorful workshop, there lived a clever young inventor named Mia. She loved creating all sorts of gadgets and gizmos, but her favorite project was designing safety equipment. One sunny day, Mia decided to craft a special helmet that could protect people in all kinds of adventures.

She spent days and nights tinkering, testing, and perfecting her Helmet until it was ready. With bright colors and extra cushioning it was not only safe but also stylish. Mia knew she had created something extraordinary. She decided to share her invention with her friends and family, encouraging them to wear helmets whenever they rode their bikes or scooters. Her helmet became a hit in the neighborhood, reminding everyone that staying safe could be fun and fashionable. Mia's dedication to safety showed that a little creativity could make a big difference in keeping everyone protected during their exciting adventures.
