## Baby Boomers Recognition Day

### Answer Key

#### Correction Marks

The Baby boomer generation is a group of people who were born between 1946 and 1964, which was a long time ago. They got their name because there were so many babies born during this time, like a big boom of babies. This happened because after World War II, people felt happy and safe so many families decided to have babies.

Baby Boomers grew up in a time when a lot of things were changing. They saw important events like the civil rights movement, where people fought for equal rights for everyone, no matter their skin color. Baby Boomers also enjoyed listening to new music called rock 'n' roll and saw amazing inventions like TVs and computers. As they got older, they continued to have a big influence on our country, making important decisions and shaping the way we live today. Now, many of them are enjoying their retirement and still making a difference in our world!

#### Complete Passage

The Baby Boomer generation is a group of people who were born between 1946 and 1964, which was a long time ago. They got their name because there were so many babies born during this time, like a big boom of babies! This happened because after World War II, people felt happy and safe, so many families decided to have babies.
