Answer Key

Correction Marks

Domestic violence is unfortunately a widespread issue in the United States, affecting a significant number of **individual** and families. According to statistics from the National Coalition **a**gainst Domestic Violence (NCADV), approximately 1 in 3 women and 1 in 4 men have experienced some form of physical violence by an intimate partner during their lifetime. This means that millions of Americans are impacted by domestic violence, and it transcends **age race**, gender, and socioeconomic status.

The **consequential** of domestic violence can be severe and far-reaching, including physical injuries, emotional trauma, and even fatalities. It also takes a toll on communities and society as a whole, with costs related to healthcare, legal services, and lost productivity. While progressing **g** has been made in raising awareness and providing support for survivors, domestic violence remains a pressing concern that requires continued efforts in prevention, education, and intervention to create a safer and more supportive environment for all individuals!

Complete Passage

Domestic violence is unfortunately a widespread issue in the United States, affecting a significant number of individuals and families. According to statistics from the National Coalition Against Domestic Violence (NCADV), approximately 1 in 3 women and 1 in 4 men have experienced some form of physical violence by an intimate partner during their lifetime. This means that millions of Americans are impacted by domestic violence, and it transcends age, race, gender, and socioeconomic status.

The consequences of domestic violence can be severe and far-reaching, including physical injuries, emotional trauma, and even fatalities. It also takes a toll on communities and society as a whole, with costs related to healthcare, legal services, and lost productivity. While progress has been made in raising awareness and providing support for survivors, domestic violence remains a pressing concern that requires continued efforts in prevention, education, and intervention to create a safer and more supportive environment for all individuals.
