

Collecting Data

Answer Key

1. Collecting data means gathering information or clues to answer a question or solve a problem.
2. I can collect data at home by counting how many times my dog barks each day.
3. I can collect data by using a stopwatch to time how long it takes my toy car to travel a certain distance.
4. Collecting data is important because it helps us learn new things and find answers to our questions. It's like putting together pieces of a puzzle to solve a mystery.
5. I would write down the number of books my classmates read each day in a notebook or on a chart.
