

Name _____

National Cancer Survivors Day

Answer Key - Correction Marks

In recent years, doctors have gotten better at helping people with Cancer. They'll learned a lot about how cancer works and found new ways to treat it. This has made more people survive cancer.

One big discovery was understanding how cancer cells work inside our bodys. They made special treatments that attack only the bad cells and leave the good ones alone. They also found a cool way to use our body's own superpower, the immune system, to fight cancer.

Finding cancer early is super important Doctors tell people to get special checkups, like mammograms for breast cancer or colonoscopies for colon cancer. These tests found cancer when it's small and easier to treat. New machines and tests help doctors find cancer even better.

Now, doctors take care of people with cancer in a special way. They dont just give medicine; they also help with feelings and food. They give exercises to make people feel strong. This makes people with cancer feel better overall.

So, because of all these cool things, more people are getting better when they have cancer. It gives hope to everyone who gets a cancer diagnosis.

Complete Passage

In recent years, doctors have gotten better at helping people with cancer. They learned a lot about how cancer works and found new ways to treat it. This has made more people survive cancer.

One big discovery was understanding how cancer cells work inside our bodies. They made special treatments that attack only the bad cells and leave the good ones alone. They also found a cool way to use our body's own superpower, the immune system, to fight cancer.

Finding cancer early is super important. Doctors tell people to get special checkups, like mammograms for breast cancer or colonoscopies for colon cancer. These tests find cancer when it's small and easier to treat. New machines and tests help doctors find cancer even better.

Now, doctors take care of people with cancer in a special way. They don't just give medicine; they also help with feelings and food. They give exercises to make people feel strong. This makes people with cancer feel better overall.
