

National Inventors Day

Answer Key

Correction Marks

In a bustling city where people always hurried, young Leo believed he could invent a machine to make chores **funniest**. Drawing ideas in his notebook, he imagined a robot with ticklish brushes and giggly sponges. After countless tries, and with parts scattered **every where**, Leo finally built "TickleBot." When it **cleaned it** tickled and laughed, turning tedious tasks into joyful games. The city's **mood** transformed; laughter echoed from homes, replacing the sounds of **sighs**. Soon, every household wanted a TickleBot. Leo's invention not only made chores delightful but also reminded **every one** of the magic in laughter. And so, in a place of hustle and bustle, joy found its way back through a child's **innovative** spirit.

Complete Passage

In a bustling city where people always hurried, young Leo believed he could invent a machine to make chores fun. Drawing ideas in his notebook, he imagined a robot with ticklish brushes and giggly sponges. After countless tries, and with parts scattered everywhere, Leo finally built "TickleBot." When it cleaned, it tickled and laughed, turning tedious tasks into joyful games. The city's mood transformed; laughter echoed from homes, replacing the sounds of sighs. Soon, every household wanted a TickleBot. Leo's invention not only made chores delightful but also reminded everyone of the magic in laughter. And so, in a place of hustle and bustle, joy found its way back through a child's innovative spirit.
