### **Answer Key: During a Natural Disaster**

1. If you are indoors during a natural disaster, go to a safe room like a basement or interior closet and stay there until it's safe.
2. Avoiding windows and glass doors is important because they can shatter during a disaster, causing injury.
3. If you are outdoors during a disaster, find a low-lying area away from trees and power lines, lie flat on the ground, and cover your head.
4. You should not try to outrun a tornado in your car because tornadoes can move quickly and are very dangerous.
