Name _____

Simplify Improper Fractions

Multiply two improper fractions and write the answer in mixed numbers.

1) $\frac{21}{6} \times \frac{20}{12} = \square = \square$	2) $\frac{30}{12} \times \frac{20}{12} = \square = \square$
3) $\frac{45}{10} \times \frac{35}{25} = \square = \square$	4) $\frac{75}{30} \times \frac{45}{20} = \square = \square$
5) $\frac{33}{25} \times \frac{30}{22} = \square = \square$	6) $\frac{25}{15} \times \frac{20}{15} = \square = \square$
7) $\frac{55}{20} \times \frac{45}{36} = \square = \square$	8) $\frac{42}{24} \times \frac{36}{30} = \square = \square$
9) $\frac{60}{32} \times \frac{35}{25} = \square = \square$	10) $\frac{33}{25} \times \frac{70}{12} = \square = \square$
11) $\frac{32}{12} \times \frac{44}{20} = \square = \square$	12) $\frac{44}{12} \times \frac{50}{30} = \square = \square$
13) $\frac{45}{25} \times \frac{35}{15} = \square = \square$	15) $\frac{40}{36} \times \frac{30}{24} = \square = \square$
