Name _____

Simplify Improper Fractions

Divide two improper fractions and write the answer in mixed numbers.

1) $\frac{40}{7} \div \frac{35}{14} = \square = \square$

2) $\frac{30}{12} \div \frac{20}{12} = \square = \square$

3) $\frac{55}{25} \div \frac{65}{30} = \square = \square$

4) $\frac{55}{30} \div \frac{60}{40} = \square = \square$

5) $\frac{40}{15} \div \frac{55}{30} = \square = \square$

6) $\frac{35}{25} \div \frac{45}{35} = \square = \square$

7) $\frac{30}{12} \div \frac{45}{20} = \square = \square$

8) $\frac{50}{24} \div \frac{30}{16} = \square = \square$

9) $\frac{50}{14} \div \frac{30}{28} = \square = \square$

10) $\frac{75}{30} \div \frac{40}{25} = \square = \square$

11) $\frac{40}{15} \div \frac{60}{35} = \square = \square$

12) $\frac{36}{20} \div \frac{50}{30} = \square = \square$

13) $\frac{75}{20} \div \frac{35}{10} = \square = \square$

15) $\frac{40}{18} \div \frac{45}{24} = \square = \square$
