Name _____

Simplify Improper Fractions

Reduce each improper fraction to its lowest terms.
and change the fraction to a mixed number.

1) $\frac{75}{35} = \frac{15}{7} = 2\frac{1}{2}$

2) $\frac{95}{25} = \square = \square$

3) $\frac{44}{20} = \square = \square$

4) $\frac{80}{44} = \square = \square$

5) $\frac{38}{18} = \square = \square$

6) $\frac{70}{38} = \square = \square$

7) $\frac{95}{30} = \square = \square$

8) $\frac{90}{35} = \square = \square$

9) $\frac{82}{20} = \square = \square$

10) $\frac{88}{30} = \square = \square$

11) $\frac{40}{25} = \square = \square$

12) $\frac{120}{48} = \square = \square$

13) $\frac{80}{35} = \square = \square$

14) $\frac{77}{14} = \square = \square$

15) $\frac{96}{36} = \square = \square$

16) $\frac{105}{40} = \square = \square$
