

Name _____

Octopuses: The Clever Ocean Creatures

Answers to Reading Comprehension Questions

1. The most distinctive feature of an octopus is its long, flexible arms.
2. Octopuses can be found in oceans all around the world, from shallow waters near the shore to the deep, dark depths of the ocean.
3. Octopuses are carnivores and eat meat, including fish, crabs, shrimp, and small octopuses.
4. Octopuses use their strong arms to capture prey, and they have a sharp beak in the center of their arms to break open shells.
5. It is important to protect octopuses because they play an important role in the ocean's ecosystem, but they face threats like pollution and overfishing.
