

## ANSWERS

1. Nostalgia is the combination of sadness and pleasure that comes with remembering something from the past and wishing that you could experience it again.

2. As a literary device, nostalgia is frequently found in the Romantic Movement of English Literature.

3. Nostalgia is used to evoke feelings of pleasure and/or sadness in the reader about their own past events. Other functions nostalgia serves are:

- Turning a sad mood into an experience of pleasure
- Increasing the nostalgic individual's sense of self-respect
- Clearing away prejudice over events from the past
