## Dial Gauge Matching Worksheet Answer Key

Match each of the dial gauges to the correct value.

The image shows six dial gauges arranged in a 3x2 grid. Each gauge has a scale from 0 to 90 with major markings every 10 units and minor markings every 2 units. The needle positions are as follows:

- Top-left: Needle points to 80.
- Top-right: Needle points to 82.
- Middle-left: Needle points to 50.
- Middle-right: Needle points to 63.
- Bottom-left: Needle points to 30.
- Bottom-right: Needle points to 10.

In the center, there are six numerical values with arrows pointing to the corresponding gauge:

- 63 (red arrow) points to the top-right gauge.
- 50 (green arrow) points to the middle-left gauge.
- 30 (blue arrow) points to the bottom-left gauge.
- 80 (green arrow) points to the top-left gauge.
- 10 (blue arrow) points to the bottom-right gauge.
- 89 (red arrow) points to the middle-right gauge.
