

Name _____

Decimal Partitioning

Partition Decimals into equal parts.

1) Partition 0.6 into two equal parts.

$$\underline{0.6 = 0.3 + 0.3}$$

2) Partition 0.8 into four equal parts.

$$\underline{0.8 = 0.2 + 0.2 + 0.2 + 0.2}$$

3) Partition 1.2 into three equal parts.

$$\underline{1.2 = 0.4 + 0.4 + 0.4}$$

4) Partition 0.9 into three equal parts.

$$\underline{0.9 = 0.3 + 0.3 + 0.3}$$

5) Partition 0.25 into five equal parts.

$$\underline{0.25 = 0.5 + 0.5 + 0.5 + 0.5 + 0.5}$$

6) Partition 5.6 into seven equal parts.

$$\underline{5.6 = 0.8 + 0.8 + 0.8 + 0.8 + 0.8 + 0.8 + 0.8}$$

7) Partition 3.5 into five equal parts.

$$\underline{3.5 = 0.7 + 0.7 + 0.7 + 0.7 + 0.7}$$

8) Partition 1.68 into four equal parts.

$$\underline{1.68 = 0.42 + 0.42 + 0.42 + 0.42}$$
