# Properties of Multiplication

By using the distributive property of multiplication.  
Fill in the equation for the given array.

 $\underline{4 \times 5} + \underline{4 \times 3} = \underline{4 \times 8}$	 $\underline{6 \times 3} + \underline{6 \times 6} = \underline{6 \times 9}$
 $\underline{5 \times 8} + \underline{5 \times 2} = \underline{5 \times 10}$	 $\underline{2 \times 6} + \underline{2 \times 1} = \underline{2 \times 7}$
 $\underline{3 \times 5} + \underline{3 \times 4} = \underline{3 \times 9}$	 $\underline{5 \times 4} + \underline{5 \times 4} = \underline{5 \times 8}$
