# Division by repeated Subtraction

Read and answer the following question.

1) How many 5's can be subtracted from 30?  <i>We can subtract 6 5's from 30.</i>	2) What is the division equation for $48 - 6 - 6 - 6 - 6 - 6 - 6 - 6 - 6$ ?  $48 \div 6 = 8$
3) How many groups of 4 you can make from 32?  <i>We can make 8 groups from 32.</i>	4) How many 3's can be subtracted from 27?  <i>We can subtract 9 3's from 27.</i>
5) What is the division equation for $24 - 4 - 4 - 4 - 4 - 4 - 4$ ?  $24 \div 4 = 6$	6) How many groups of 3 you can make from 18?  <i>We can make 6 groups from 18.</i>
7) How many 9's can be subtracted from 54?  <i>We can subtract 6 9's from 54</i>	8) What is the division equation for $30 - 6 - 6 - 6 - 6 - 6$ ?  $30 \div 6 = 5$
9) How many groups of 4 you can make from 32?  <i>We can make 8 groups from 32.</i>	10) How many 7's can be subtracted from 28?  <i>We can subtract 4 7's from 28.</i>
