

Name _____

Rounding Large Numbers

Estimate the differences by rounding the numbers.

1) Estimate the difference between 8,934,567 and 5,678,901 by rounding each number to the nearest million	2) Estimate the difference between 12,345,678 and 9,876,543 by rounding each number to the nearest hundred thousand.
3) Estimate the difference between 23,456,789 and 18,901,234 by rounding each number to the nearest ten thousand.	4) Estimate the difference between 45,678,901 and 38,901,234 by rounding each number to the nearest thousand.
5) Estimate the difference between 56,789,012 and 49,012,345 by rounding each number to the nearest hundred.	6) Estimate the difference between 67,890,123 and 59,012,345 by rounding each number to the nearest ten.
7) Estimate the difference between 78,901,234 and 67,012,345 by rounding each number to the nearest thousand.	8) Estimate the difference between 89,012,345 and 78,123,456 by rounding each number to the nearest hundred.
9) Estimate the difference between 91,234,567 and 81,345,678 by rounding each number to the nearest ten.	10) Estimate the difference between 98,765,432 and 89,876,543 by rounding each number to the nearest million.
