

ANSWERS

ONE MINUTE MULTIPLICATION DRILLS

Solve the multiplications as quickly as possible, use a stopwatch to keep time.

$1 \times 6 = \underline{6}$	$2 \times 7 = \underline{14}$	$3 \times 8 = \underline{24}$	$4 \times 9 = \underline{36}$	$5 \times 1 = \underline{5}$
$6 \times 2 = \underline{12}$	$7 \times 3 = \underline{21}$	$8 \times 4 = \underline{32}$	$9 \times 5 = \underline{45}$	$1 \times 7 = \underline{7}$
$2 \times 8 = \underline{16}$	$3 \times 9 = \underline{27}$	$4 \times 1 = \underline{4}$	$5 \times 2 = \underline{10}$	$6 \times 3 = \underline{18}$
$7 \times 4 = \underline{28}$	$8 \times 5 = \underline{40}$	$9 \times 6 = \underline{54}$	$1 \times 8 = \underline{8}$	$2 \times 9 = \underline{18}$
$3 \times 1 = \underline{3}$	$4 \times 2 = \underline{8}$	$5 \times 3 = \underline{15}$	$6 \times 4 = \underline{24}$	$7 \times 5 = \underline{35}$
$8 \times 6 = \underline{48}$	$9 \times 7 = \underline{63}$	$1 \times 9 = \underline{9}$	$2 \times 1 = \underline{2}$	$3 \times 2 = \underline{6}$
$4 \times 3 = \underline{12}$	$5 \times 4 = \underline{20}$	$6 \times 5 = \underline{30}$	$7 \times 6 = \underline{42}$	$8 \times 7 = \underline{56}$
$9 \times 8 = \underline{72}$	$1 \times 1 = \underline{1}$	$2 \times 2 = \underline{4}$	$3 \times 3 = \underline{9}$	$4 \times 4 = \underline{16}$

Total correct: _____ Time: _____

How Did You Do? 😊 😐 ☹️
