## MULTIPLICATION MAZES

Find the answer to all the multiplication problems. Then use the calculated products to follow the path through the maze. Use the product paths up to down and then left to right.

$5 \times 8 = \underline{40}$	$6 \times 4 = \underline{24}$	$7 \times 2 = \underline{14}$
$6 \times 2 = \underline{12}$	$9 \times 2 = \underline{18}$	$8 \times 2 = \underline{16}$
$9 \times 5 = \underline{45}$	$7 \times 5 = \underline{35}$	$5 \times 3 = \underline{15}$

The maze contains the following numbers in its cells:

- Top row: 21, 44, 31
- Second row: 11, 16, 15, end
- Third row: 37, 14, 35
- Fourth row: Start 40, 22, 65
- Fifth row: 28, 12, 13, 70
- Sixth row: 15, 45, 24, 25
- Bottom row: 19, 20, 30

A red path is drawn through the maze, starting at 'Start 40' and ending at 'end'. The path follows the numbers: 40, 24, 14, 16, 15, 35, 12, 13, 24, 19, 20, 30, 25, 70, 65, 35, 14, 16, 15, and ends at 'end'.

How Did You Do?
