## Division by repeated Subtraction

Find the quotient and remainder by using repeated subtraction

1)  $38 \div 5 \rightarrow$  38 - 5 - 5 - 5 - 5 - 5 - 5 - 5 = 3

Quotient : 7      Remainder : 3

2)  $47 \div 7 \rightarrow$  47 - 7 - 7 - 7 - 7 - 7 - 7 = 5

Quotient : 6      Remainder : 5

3)  $63 \div 8 \rightarrow$  63 - 8 - 8 - 8 - 8 - 8 - 8 - 8 = 7

Quotient : 7      Remainder : 7

4)  $42 \div 5 \rightarrow$  42 - 5 - 5 - 5 - 5 - 5 - 5 - 5 - 5 = 2

Quotient : 8      Remainder : 2

5)  $75 \div 9 \rightarrow$  75 - 9 - 9 - 9 - 9 - 9 - 9 - 9 - 9 = 3

Quotient : 8      Remainder : 3

6)  $62 \div 8 \rightarrow$  62 - 8 - 8 - 8 - 8 - 8 - 8 - 8 - 8 = 6

Quotient : 7      Remainder : 6

7)  $49 \div 5 \rightarrow$  49 - 5 - 5 - 5 - 5 - 5 - 5 - 5 - 5 - 5 = 4

Quotient : 9      Remainder : 4

8)  $55 \div 6 \rightarrow$  55 - 6 - 6 - 6 - 6 - 6 - 6 - 6 - 6 - 6 = 1

Quotient : 9      Remainder : 1
