

ANSWERS

ONE MINUTE MULTIPLICATION DRILLS

Solve the multiplications as quickly as possible, use a stopwatch to keep time.

$9 \times 7 = \underline{63}$	$1 \times 9 = \underline{9}$	$2 \times 1 = \underline{2}$	$3 \times 2 = \underline{6}$	$4 \times 3 = \underline{12}$
$5 \times 4 = \underline{20}$	$6 \times 5 = \underline{30}$	$7 \times 6 = \underline{42}$	$8 \times 7 = \underline{56}$	$9 \times 8 = \underline{72}$
$1 \times 1 = \underline{1}$	$2 \times 2 = \underline{4}$	$3 \times 3 = \underline{9}$	$4 \times 4 = \underline{16}$	$5 \times 5 = \underline{25}$
$6 \times 6 = \underline{36}$	$7 \times 7 = \underline{49}$	$8 \times 8 = \underline{64}$	$9 \times 9 = \underline{81}$	$1 \times 2 = \underline{2}$
$2 \times 3 = \underline{6}$	$3 \times 4 = \underline{12}$	$4 \times 5 = \underline{20}$	$5 \times 6 = \underline{30}$	$6 \times 7 = \underline{42}$
$7 \times 8 = \underline{56}$	$8 \times 9 = \underline{72}$	$9 \times 1 = \underline{9}$	$1 \times 3 = \underline{3}$	$2 \times 4 = \underline{8}$
$3 \times 5 = \underline{15}$	$4 \times 6 = \underline{24}$	$5 \times 7 = \underline{35}$	$6 \times 8 = \underline{48}$	$7 \times 9 = \underline{63}$
$8 \times 1 = \underline{8}$	$9 \times 2 = \underline{18}$	$1 \times 4 = \underline{4}$	$2 \times 5 = \underline{10}$	$3 \times 6 = \underline{18}$

Total correct: _____ Time: _____

How Did You Do? 😊 😐 ☹️
