## ANSWERS

# PIE CHARTS

A coffee shop conducted a survey among its customers on their favorite drink. They created a pie chart with the results. Observe the chart and answer the questions.

1. What is the most popular drink among the customers?

Solutions: Coffee (40%)

2. How many customers prefer tea?

Solutions: 30 customers (assuming a sample of 100 customers)

3. What is the least popular drink?

Solutions: Water (10%)

4. How many customers chose juice as their favorite drink?

Solutions: 20 customers (assuming a sample of 100 customers)

How Did You Do? 😊 😐 😞
