

Name _____

Decimal Partitioning

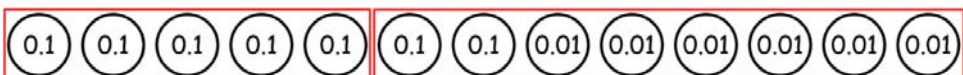

Use the counter to partition the decimal numbers in different ways.

1) 

$$0.76 = \underline{0.7} + \underline{0.06}$$

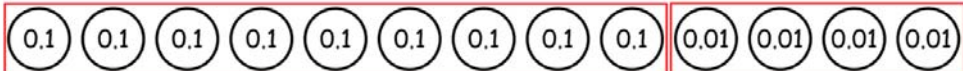

$$0.76 = \underline{0.6} + \underline{0.16}$$

$$0.76 = \underline{0.5} + \underline{0.26}$$

$$0.76 = \underline{0.4} + \underline{0.36}$$

2) 

$$0.94 = \underline{0.9} + \underline{0.04}$$

$$0.94 = \underline{0.8} + \underline{0.14}$$

$$0.94 = \underline{0.7} + \underline{0.24}$$

$$0.94 = \underline{0.6} + \underline{0.34}$$
