

Name _____

Division by repeated Subtraction

True and False

- 1) Dividing 20 by 5 using repeated subtraction involves subtracting 5 a total of 4 times. True
- 2) Dividing 18 by 3 using repeated subtraction will result in subtracting 3 a total of 6 times. True
- 3) If you divide 14 by 2 using repeated subtraction, you subtract 2 a total of 8 times. False
- 4) Dividing 25 by 5 using repeated subtraction results in subtracting 5 a total of 5 times. True
- 5) If you divide 16 by 4 using repeated subtraction, you subtract 4 a total of 4 times. True
- 6) Dividing 24 by 6 using repeated subtraction results in subtracting 6 a total of 6 times. False
- 7) When dividing 30 by 10 using repeated subtraction, you subtract 10 a total of 3 times. True
- 8) Dividing 21 by 7 using repeated subtraction involves subtracting 7 a total of 4 times. False
- 9) If you divide 36 by 9 using repeated subtraction, you will subtract 9 a total of 4 times. False
- 10) Dividing 15 by 5 using repeated subtraction involves subtracting 5 a total of 3 times. True
